Digestibility of "Humanised Milk."

"Humanised Milk" (made with Fairchild's Peptogenic Milk Powder) is just as digestible as mothers' milk, no more so. It is not unnaturally easy of digestion; it is simply milk so modified and adjusted as to correspond with mothers' milk in every particular; in chemical, physical, and physiological properties. It is the only artificial food for infants which contains the proper quantity and peculiar relative proportion of nutritive elements. It is the only food which contains the albuminoids in the digestible condition characteristic of those of human milk. This is due to the alteration of the caseine by the most innocent, simple, and natural agent ever devised and the only successful one, viz., the animal digestive ferment of the 'Peptogenic Milk Powder." Samples and pamphlets sent gratis upon application to

FAIRCHILD BROS. & FOSTER, New York.

7 Reasons why Papoid is superior to Pepsin

1 *Digestive Power*

"In other words, Papoid possesses the combined powers of the Salivary, Gastric and Pancreatic ferments." (KILMER—Paper read before New Jersey Pharmaceutical Association.)

2 *Acts Throughout Entire Alimentary Canal*

"An additional advantage of Papoid (in diphtheria) is that it helps Nature to digest whatever food there may be in the alimentary canal." (LOVE, Prof. Clin. Med. and Diseases of Children, Marion Sims Coll. Med., St. Louis.)

3 *Stimulates Natural Digestion*

"Pepsin often relieves a present difficulty; but Papoid, in addition, places the stomach in condition to digest the next meal. It is far better to make the stomach do its own work. Pepsin makes the stomach lazy; Papoid does not." (LARRABEE, Prof. Hospital College of Medicine, Louisville, Ky.)

4 *Acts in Acid, Alkaline, or Neutral Media*

"But much more convenient than this will be found the dusting of a minute portion of Papoid beneath the protective strips. This succeeds well, because Papoid acts best in a concentrated medium of any reaction whatever, pepsin only in a dilute acid solution." (MORTON, on Leg Ulcers, read before Philadelphia County Medical Society.)

5 *Acts on All Kinds of Food. Can be Combined with Antiseptics*

"The physiological actions of Papoid as a digestive agent have been thoroughly established. It acts upon albuminoids, hydrating them and converting them into peptones. Converts starch with great promptness, the ultimate product being maltose. It emulsifies fats. An important point is, it can be given in conjunction with true antiseptics, even corrosive sublimate in dilute solutions does not interfere with its digestive powers."
(WOODBURY, Prof. Clinical Medicine, Medico-Chirurgical College, Philadelphia, Pa.)

6 *Acts in the Intestines*

"I have accomplished more with Papoid than I was ever able to accomplish with the best p psin. Papoid does especially well in gastro-intestinal catarrh and colitis." (DIXON, Prest. Kentucky St .te Medical Society.)

7 *Costs Less*

AVERAGE DOSE PEPSIN IS ABOUT 5 GRAINS AND COSTS 0.0143.
" " PAPOID BEING 1 GRAIN AND COSTS 0.0125.

JOHNSON & JOHNSON CHEMISTS N. Y.

Before the Medical Profession almost 30 years, and invariably gives uniform satisfaction.

We respectfully ask thorough testing, strictly *upon its own merits,* to prove the exceptionally high reputation it holds.

Owing to correspondence on the subject, we regret being compelled to caution, that inferior Coca preparations are frequently substituted upon patients, and, as we do not advertise to the public, physicians will kindly be particular to insist on

VIN MARIANI

FORMULA: "VIN MARIANI" is the concentrated extractive of the fresh leaf Erythroxylon Coca, blended with a special quality of Bordeaux Wine. Each half-litre bottle contains the medicinal properties of two ounces of selected leaves.

DOSE: Usually a wine-glassful three times a day, half an hour before meals or immediately after. Increased or diminished, at discretion of the physician.

INDICATED: As a pleasant, mild stimulant, without unpleasant reaction; a diffusible tonic; a strengthener of the nervous system, with especial good effect on the digestive and respiratory organs; convalescence and enfeebled conditions. Effect is immediate and lasting.

NOTE: Extensively used in Hospitals, Cliniques, and private practice, its merits are recorded by the medical press of Europe and America. Uniform excellence and recognized efficacy won the absolute confidence and esteem of every physician who subjected it to test, and it may be affirmed that wherever Coca is indicated "Vin Mariani" invariably receives the preference.

The continual increasing demand is a clear proof of the reliance placed in "Vin Mariani" by the Medical Profession, through whom it has been popularized.

We will be happy to forward, post-paid, to any physician mentioning this journal, a handsomely bound book, detailing formulæ, dose, physiological effects and therapeutic indications of Coca, as also other interesting reading matter connected with the subject by European and American observers.

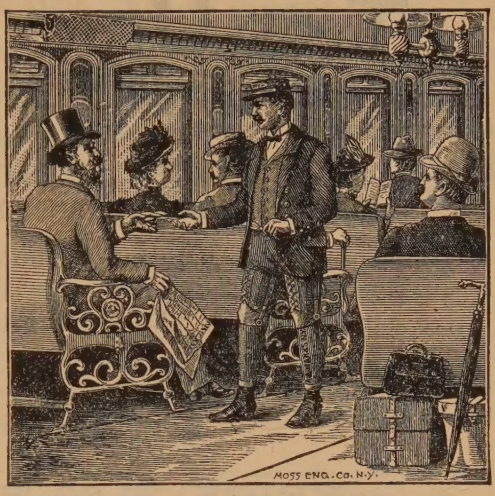
Depot for the United Kingdom—32 SNOW HILL, LONDON, E. C.

A CONDUCTOR ON A WESTERN EXPRESS IS THE MARVEL OF THOSE WHO HAVE BEEN LET INTO HIS SECRET.



Although having had both of his feet amputated, he is a conductor of extraordinary ability.

He passes through his train when going at the rate of sixty miles an hour; he collects and punches tickets with the suavity of one proud of his position. The car jolts, hitches, sways and he retains his balance without the least awkwardness.

At stations he alights with agility, watches his passengers and gives signals, boards his train and walks the passageway with the steadiness of one possessing his natural legs.

Day after day for three years he has performed this round of duty, and not a soul has had occasion to suspect that he operates on a pair of artificial legs with rubber feet, and only those to whom he voluntarily reveals his condition ever know of his dependence on artificial extremities. His movements are graceful, his appearance is natural, his step is firm and elastic, and his power is complete.

All this is made possible by the virtues of rubber, which largely composes the feet; the old methods of artificial limbs, with wooden feet and mechanical joints, would render this man unsafe, tottlish, unsteady, and unfit for a position that requires sound footing. The engraving represents Mr. Wade operating on his artificial is in his chosen profession.

Conductors, engineers, firemen, brakemen, miners, and men of all trades, who have met with the loss of either extremities, have been restored and enabled to resume their labors by the use of artificial limbs with rubber hands and feet.

Subjects can remain at home and have artificials made, with fit guaranteed. One-half the legs and arms are made from measurements and profiles, without the presence of the wearer.

Indorsed by eminent surgeons, and over 13,000 men, women, and children who wear them, residing in all parts of the world.

A treatise of 430 pages, with 256 illustrations and 1,000 testimonials, will be sent FREE OF CHARGE. Address,

A. A. MARKS, 701 BROADWAY, NEW YORK CITY.

A Theory Demonstrated in Practice,—

THE URIC SOLVENT.

For NEUTRALIZING and ELIMINATING URIC ACID from the BLOOD and thereby removing from the system the disorders caused by it, viz:

DIABETES, BRIGHT'S DISEASE, CYSTITIS, SCIATICA, GOUT, RHEUMATISM, DROPSY, NEURALGIA, AND DISEASES OF THE HEART.

THE URIC SOLVENT is a rational and very effective remedy for all RENAL DISORDERS and those derangements and diseases arising from a defective action of the kidneys. Physicians will find in the URIC SOLVENT a GREAT HELPER in the treatment of the above complaints, it being free from all poisonous drugs. Dispensed by all reliable apothecaries.

PRICE, $1.00 PER BOTTLE.

For URIC SOLVENT Circular, Formula, Treatment, etc., address,

NEW YORK PHARMACEUTICAL CO.,

BEDFORD SPRINGS, MASS.

TWENTY-FIVE YEARS have established the great reputation of

HAYDEN'S

VIBURNUM COMPOUND

IN THE AILMENTS OF WOMEN

and in obstetric practice; it being superior to ERGOT in any and all cases. THE VIBURNUM COMPOUND of Dr. Hayden *antedates* and excels all other special remedies in the cases for which it is recommended, being *perfectly* safe and prompt in action.

☞ **Write for H. V. C. and Avoid all Imitations and Substitutes.**

FRELIGH'S TABLETS,

(Cough and Constituent),

FOR THE PREVENTION AND CURE OF

PULMONARY PHTHISIS.

FORMULÆ

Cough Tablets.

EACH TABLET CONTAINS

Morph. Sulph. ($\frac{1}{50}$ gr.), Atropiæ Sulph. ($\frac{1}{500}$ gr.), Codeia ($\frac{1}{50}$ gr.). Antimony Tart. ($\frac{1}{25}$ gr.), Ipecac, Aconite, Pulsatilla, Dulcamara, Causticum, Graphite, Rhus-tox, and Lachesis, fractionally so arranged as to accomplish every indication in any form of cough.

Constituent Tablets.

EACH TABLET CONTAINS

Arsenicum ($\frac{1}{50}$ gr.), Precipitate Carb. of Iron, Phos. Lime, Carb. Lime, Silica, and the other ultimate constituents, according to physiological chemistry (normally), in the human organism, together with Caraccas, Cocoa, and Sugar.

PRICE, THREE DOLLARS PER DOUBLE BOX.

Containing sufficient Tablets of each kind to last from one to three months, according to the condition of the patient.

A Connecticut physician writes:

"I am now using your Tablets on a patient (young lady), who has had three quite severe hemorrhages the week previous to the beginning of the same. She has taken one box only, has had no return of the hemorrhage, and has gained four (4) pounds since beginning treatment, besides all rational symptoms have improved wonderfully. I will add that I had tried Ol. Morrh., Syr. Hypophos. Co., etc., with no apparent benefit."

A Virginia physician writes:

"Enclosed find Postal Note for another double box Freligh's Tablets. I used the sample box in three cases, with decided benefit in one, slight improvement in second, and while they did not improve the third case, it being in very advanced stage, there was an amelioration of the distressing symptoms."

A Massachusetts physician, in practice 25 years, writes:

"Send me two double boxes Freligh's Tablets. I have tried the sample box with most excellent results."

A Michigan physician writes:

"I am more than pleased with them. They have not disappointed me once. Dr. C., for whom I ordered a box writes me that he is much improved, and speaks in praise of them. He has genuine Tuberculosis, and while I do not think he can recover, yet I firmly believe the Tablets will prolong his life."

SPECIAL OFFER.

While the above formulæ have been in use, in private practice, over 30 years, and we could give testimonials from well-known clergymen, lawyers, and business men, we prefer to leave them to the unbiased judgment of the profession with the following offer: On receipt of 50 cents, and card, letter-head, bill-head, or other proof that the applicant is a physician in active practice, we will send, delivered, charges prepaid, one of the regular (double) boxes (retail price, Three Dollars), containing sufficient of each kind of Tablets to test them three months (in the majority of cases) in some one case. Card, letter-head, or some proof that the applicant is a physician in active practice, MUST accompany each application. Pamphlet, with full particulars, price-list, etc., on request.

A PHOSPHORIZED

CEREBRO-SPINANT.

(FRELIGH'S TONIC.)

Our Special Offer is still open, to send to any physician, on receipt of 25 cents, and his card or letter head, half a dozen samples, delivered, charges prepaid. Each sample is sufficient to test it for a week in one case.

As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO., Manufacturers of Physicians' Specialties,

88 Maiden Lane, New York City.

PEACOCK'S BROMIDES

(SYR: BROM: COMP: PEACOCK.)

Each fluid drachm represents 15 grains of the Combined C. P. Bromides of Potassium, Sodium, Calcium, Ammonium and Lithium.

USES: EPILEPSY, UTERINE CONGESTION, HEADACHE, AND ALL CONGESTIVE, CONVULSIVE AND REFLEX NEUROSES.

This preparation produces results, which can not be obtained from the use of commercial Bromide substitutes.

DOSE.—One to two FLUID drachms, in WATER, three or more times a day.

PEACOCK'S FUCUS MARINA

(ELIX: FUCI MAR: PEACOCK.)

From Sea Weed. **Uses: Malaria, Phthisis, Etc.**

An ALLY of quinine—quinine CHECKS the Malarial Chill; Fucus Marina ELIMINATES the Malarial CAUSE; and thus prevents the recurrence of the Chill *after* it has been *checked* by quinine.

An INVALUABLE REMEDY in the treatment of Phthisis—it arrests the decay of lung tissue, diminishes the fever, lessens the cough, abates the soreness in the lungs, improves the appetite, and impedes the progressive emaciation.

DOSE.—One Teaspoonful IN WATER, four times a day.

CHIONIA FROM CHIONANTHUS.

Uses: Biliousness, Jaundice, Dyspepsia, Constipation, and all Diseases Caused by Hepatic Torpor.

CHIONIA stimulates the Liver and restores it to a healthy condition, without debilitating the system by Catharsis; does not purge, per se, but under its use the Liver and Bowels gradually resume their normal functions.

DOSE.—One Fluid Drachm three times a day.

PEACOCK CHEMICAL CO., ST. LOUIS.

DR. MASSEY'S
Private Sanitarium

212 SOUTH FIFTEENTH ST.,

PHILADELPHIA.

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DR. G. BETTON MASSEY,

DR. MEIGS CASE'S SPINAL APPARATUS.

Examine cut carefully. The patient, whether child or adult, is suspended by head-rest D embracing chin and occiput. This is hooked on the swivelled beam above, which is attached to spiral spring A. The spring is re-inforced by two web elastics B B connecting the two whiffletrees. Leather straps with adjusting buckles at C are buttoned to the ends of the lower bar and hold the wood rings E, to which the corset or belt is secured. The arms pass freely through the rings with no lifting under the arm pits. The corset or belt supports part of the weight and steadies the body in walking.

Of course the suspension is only partial, no more than the patient can comfortably endure, and the traction is continually varied by the motion of the spring. The whole suspensory apparatus can be raised by the thumb-screw at top, also by slots in the lower end of the upright spars on each side. With the seat thrown back, as in cut, the patient moves the carriage to and fro, turning easily about inside, or the seat being thrown forward, may sit at ease, and play, or read, or be otherwise employed, or may be moved by an attendant, all the while in suspension. A patient suffering from acute Pott's disease, or spinal irritation, and unable to sit up without distress, will remain for hours in this apparatus with perfect comfort, and even fall asleep in the seat by reason of relief from pain. Dr. Case's Apparatus has practically proved itself useful in almost every form and stage of spinal disease and curvature, and for defective innervation and lack of muscular power.

Fig. 1.

THE "MASTER"

SURGICAL ELASTIC STOCKINGS,

FOR VARICOSE VEINS, WEAK AND SWOLLEN JOINTS, DROPSY OF THE LIMBS, SPRAINS, ETC.

Provided with the Patent Non-Elastic **STAYS AND ADJUSTING LOOPS**, by the aid of which they can be drawn on easily, like pulling on a boot. They will last much longer than the old style, as the stays prevent them from being torn apart in drawing them on. All kinds and sizes in thread or silk elastic.

Fig. 1.—The Old Style discarded on account of pulling apart, while the elastic is still in good condition.

Fig. 2.—The New Style cannot pull apart and consequently lasts until worn out.

BROMIDIA

THE HYPNOTIC.

FORMULA.—Every fluid drachm contains fifteen grains EACH of Pure Chloral Hydrat. and purified Brom. Pot. and one-eighth grain EACH of gen. im. ext. Cannabis Ind. and Hyoscyam.

DOSE.—One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or Pain-relieving Principle of Opium, the Narcotic and Convulsive Elements being Eliminated. It has Less Tendency to Cause Nausea, Vomiting, Constipation, etc.

INDICATIONS.—Same as Opium or Morphia.

DOSE.—ONE FLUID DRACHM—(represents the Anodyne principle of one-eighth grain of Morphia.)

IODIA

THE ALTERATIVE AND UTERINE TONIC.

FORMULA.—Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—One or two fluid drachms (more or less as indicated) three times a day, before meals.

INDICATIONS.—Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions and General Uterine Debility.

BROMIDE OF STRONTIUM.
(PARAF-JAVAL.)

These solutions are put up in 3 x original bottles containing ʒj to the fluid ounce, and their purity is guaranteed by the signature of *Paraf-Javal* on the labels.

APIOLIN-CHAPOTEAUT.

(The true active principle of Parsley).

In DYSMENORRHŒA

Dr. Richard Hill before the Washington Medical Society, January 1891, stated that it was decidedly the most reliable agent he had yet used in spasmodic and congestive dysmenorrhœa.

In AMENORRHŒA

Fordyce Barker found the active principle of parsley of great value in Amenorrhœa, given daily a week antecedent to expected menstruation. (*Shoemaker's Materia Med.*)

Dispensed in spherical capsules of 20 centigrammes. Dose: 2 daily.

OL. SANTAL-MIDY.

For gonorrhoea and all forms of urethritis. It replaces copaiba, cubebs, and other remedies, without producing eructations, offensive odor or diarrhœa. The discharge is reduced to a slight oozing in forty-eight hours. It cures the most obstinate cases of cystitis and inflammation of the neck of the bladder.

Dr. Posner stated before the Berlin Medical Society: "The best form was the French preparation known as ***Santal-Midy.***—*Medical Record.*

Dose: 6 to 12 capsules daily. Original bottles contain 40 capsules.

The above are manufactured in the laboratories of

RIGAUD & CHAPOTEAUT, Paris.

New York Depot: E. FOUGERA & CO., 30 N. William Street.

From whom samples and literature may be obtained on application.

TO THE MEDICAL PROFESSION.

During the past seven years we have been laboring assiduously to produce *Infant Foods* ready for use that would closely resemble healthy human milk. It has not been an easy task, as every physician knows who has taken a special interest in the subject. We have spared neither labor nor expense to accomplish this object, which will be demonstrated to any Physician who will visit our factory. We have met the more recent demand for a *sterilized Food for Infants* by an expensive change in our machinery under the supervision of the most eminent Bacteriologists in the country. This sterilization has been accomplished without rendering the casein of the milk less digestible, as is invariably done with the patented sterilizers in use. It also insures, with the hermetically sealed cans, their perfect keeping qualities.

We do not think it possible that any *Infant Food* will ever be prepared that will excel **LACTO-PREPARATA** (an all milk food) for the feeding of young infants, and **CARNRICK'S FOOD** for their nourishment during the latter part of the nursing period. All other *Infant Foods* in the market are composed entirely of the cereals; or they contain so little milk (8 per cent.) that it is a misnomer to call them Milk Foods. If such foods are used alone, the child will not be properly nourished, its flesh will be flabby, and it will quickly succumb to disease, because they are deficient in albuminoid constituents.

Send for circulars and samples.

KUMYSGEN

Make your own KUMYSS in one minute.

A Product of Pure, Sweet Milk.

What is Kumysgen?

It is *Kumyss* in a dry form containing all the constituents of the best *Kumyss*, and requires only the addition of water to produce an article superior in digestibility and palatability to the old form of *Kumyss*.

It is the *Ideal Food* in all cases where nutrition is an important factor, and digestion is feeble.

When all other Foods fail try **Kumysgen,** but it is better to try it in the beginning and save time and strength.

Kumysgen is the only preparation of *Kumyss* that will keep. All liquid preparations of *Kumyss* will keep but a short time, and are constantly changing in the bottle, unless some deleterious preservative is used.

Kumyss made from **Kumysgen** is far more palatable, easier digested, and 35 per cent. less expensive than the old style **Kumyss.**

Our **Siphon Kumysgen Bottles** allow *Kumyss* to be drawn without loss of contents. One in every three bottles are *siphons*, containing same quantity of KUMYSGEN as the others. Send for samples and descriptive circulars.

Manufactured Only by

REED & CARNRICK, New York.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE:

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of OSMOSIS, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

UNIVERSITY OF VIRGINIA

JAMES L. CABELL, A. M., M. D., LL. D.,

Professor of Physiology and Surgery in the Medical Department of the University of Virginia, President of the National Board of Health, etc., etc., says:—

"**The Buffalo Lithia Water** Spring, No. 2, contains in notable quantities two of the alkalies which are accredited as extremely valuable in the treatment of Gout, Lithiasis and Liver Affections. I refer to the Carbonates of Potash and Lithia. It is now well known that both of these alkaline carbonates have an ascertained value in cases of

URIC ACID DIATHESIS CONNECTED WITH GRAVEL

and in cases of Chronic Gout, because of their affinity for Uric Acid and the great solubility of the salts which are formed by their union with that acid. It is, however, held by eminent medical authorities, that 'the beneficial effects of alkalies are not due to their neutralizing acidity, or to any direct action upon Uric Acid,' but that they 'seem to do good by combating the pathological state on which the formation of Uric Acid depends.' We are not, however, left to theory, as to the action of this water, as numerous testimonials from the profession seem to have established the fact that it has already accomplished results, such as its composition would indicate. It is **a remedy of decided efficiency in the Lithaemic condition."**

Water in cases of one dozen half-gallon bottles, $5.00, f. o. b. here. For sale by all first-class druggists.

THOMAS F. GOODE, PROPRIETOR
BUFFALO LITHIA SPRINGS, VA.

Platt's Chlorides,

The True Disinfectant.

Eleven years of practical daily use, by tens of thousands of intelligent physicians, and by hundreds of thousands of careful housekeepers, has established beyond doubt the value, the usefulness, and the superiority of Platt's Chlorides.

An odorless liquid, clean, stainless, powerful, efficient, and economical, it is peculiarly adapted to all the sanitary needs of the sick-room, and the hygienic demands of the household.

Platt's Chlorides is sold in quart bottles only, and by nearly every apothecary in every city, town or village in the United States. Should there be any practicing physician anywhere who may not as yet personally know its value, a sample with descriptive circulars, etc., will be gladly furnished free. Address, giving both Post and Express Offices,

HENRY B. PLATT, 36 Platt St., N. Y.

JOHNSTON'S FLUID BEEF.

CHEMICAL ANALYSIS By WM. HARKNESS, F.C.S.L., Analytical Chemist to the British Government.

LABORATORY, Somerset House, London, Eng.

I have made a very careful chemical analysis and microscopical examination of **Johnston's Fluid Beef**, and find it to contain in every 100 parts:

Moisture,	**26.14**	
Albumen and Gelatine,	**21.81**	**Nitrogenous or**
Fibrine in a readily soluble form,	**37.48**	**flesh-forming food.**
Ash or Mineral Matter,	**14.57—100.00**	

"The mineral matter is rich in phosphates. The microscopical examination shows the **Fluid Beef** to contain good, sound beef, ground to a very fine powder. There is not the slightest trace of fungus, spores, or any other organism which would tend to produce decomposition. I consider this a most valuable preparation, *combining, as it does, a concentrated extract of Beef with the solid beef itself*,—the latter being in a form easily digested."

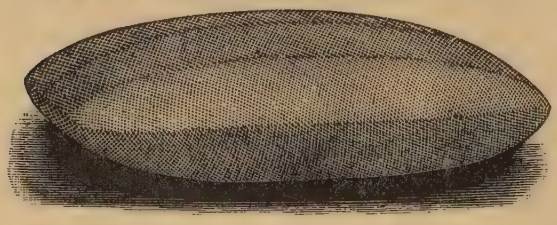
Differing in all Essential Points from other Meat Extracts in the Market.

General Agents for the United States,

ROBERT SHOEMAKER & CO.,

Nos. 201 and 203 NORTH FOURTH STREET, PHILADELPHIA.

KEEP THE HEAD COOL.



UPHOLSTERED IN FINE HAIR.

Sent, prepaid, on receipt of price. Descriptive circular on application.

The Torsion Braided Wire Spring Pillow.

Patented September 5. 1882, February 23 and May 18, 1886, March 15, 1892.

A cool and comfortable support for the head or body, conducive to refreshing sleep. Health-restoring to the sick. Self-ventilating. Practically indestructible. Made only by

The Weston & Wells Mfg. Co.,

1110-1116 Noble St., Phila., Pa.

Manufacturers of Torsion Spring Mattresses, Cushions, etc., etc., to be had of surgical supply houses.

CHOLERA.

HORSFORD'S ACID PHOSPHATE.

By the researches of Koch and others, it is found that the cholera bacilli require for their growth, a mild alkaline nutrient medium, and that acids are most useful to kill them.

Horsford's Acid Phosphate has been successfully employed by the Physicians in Europe and America, and possesses special advantages over other acids, because of its beneficial action upon the nerves and process of digestion, and its tonic and general strengthening effect upon the whole system.

Half a teaspoonful in half a tumbler of water, with sugar if desired, will make a palatable drink.

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

RUMFORD CHEMICAL WORKS, Providence, R. I.

BEWARE OF SUBSTITUTES AND IMITATIONS.

Bulletin Binders.

THE NATIONAL BINDER commends itself to the profession as possessing merits far superior to any similar invention.

FIRST. The **SOLID WOODEN BACK,** presenting an attractive appearance, corresponding to a permanently bound book, and in striking contrast to all other binders, with their soft, "mushy" backs, equally untidy on the table or library shelf.

SECOND. **NON-MUTILATION OF CONTENTS.** The journal is instantly but securely bound by the thin slats which run the length of the magazine, and yet can be removed at pleasure.

THIRD. The **SIMPLICITY OF ITS CONSTRUCTION.**

While the strength and simplicity of the binder is noticeable, it is also *very light in weight.* Professional men, and all who wish to preserve printed or written literature in a permanent, cheap, and attractive form, unite in their praise of what is destined to become a standard article as fast as known.

PRICE, 80 CENTS, INCLUDING POSTAGE. Send money with orders to

DR. McMUNN'S

Elixir of Opium.

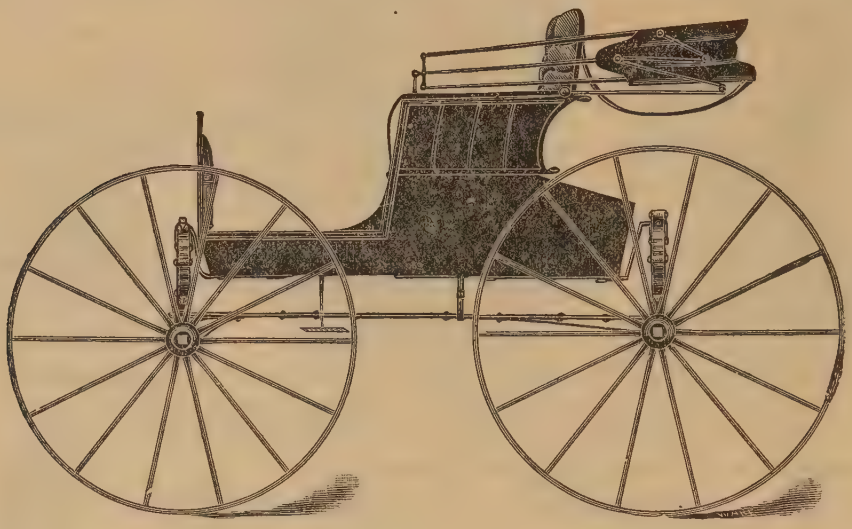
AN INVALUABLE DISCOVERY IN THE PREPARATION OF OPIUM.

It contains all the valuable medicinal properties of Opium in natural combination, to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend. It possesses all the sedative, anodyne, and antispasmodic powers of Opium: To produce sleep and composure, to relieve pain and irritation; nervous excitement and morbid irritability of body and mind; to allay convulsive and spasmodic actions, etc; and being purified from all the noxious and deleterious elements, its operation is attended by no sickness of the stomach no vomiting, no costiveness, no headache, nor any derangement of the constitution or general health. Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum., and every other Opiate preparation.

CAUTION.

On account of its large sale, spurious articles are offered in bulk. The genuine is sold only in vials of about 7 drachms, with yellow wrappers and signature of Jno. B. McMunn.

E. FERRETT, Agent, 372 Pearl Street, New York.



HAVING leased the entire five-story building, N. E. Cor. Arch and Twelfth Streets, for a term of years, we have fitted it up for the manufacture and sale of fine Carriages, Harness, etc., etc.

In our *three show rooms* (passenger elevator to each floor) you will always find a full assortment of Carriages of our own manufacture, with which the public has long been familiar. In addition, we shall keep in stock all the latest novelties in Oak and Painted work.

As our shops here are fully equipped for doing *First-class Repair Work* with dispatch, we have discontinued the shops at 1707 and 1709 Filbert Street. We solicit your valuable patronage, and guarantee satisfaction in every particular. Entrance to Repair Shops on Twelfth Street.

Having made a Specialty of PHYSICIANS' CARRIAGES for a number of years, we feel we can fully satisfy the demand for THOROUGH WORK at MODERATE PRICES.

STEARNS'

Cascara Aromatic

Is a fluid extract (not a cordial, syrup, or other *dilute* preparation.) of prime and selected two year old bark (Fresh bark contains a ferment which produces griping.).

Cascara Aromatic is sweet in taste (which children and women especially appreciate.) instead of being bitter, as is the ordinary fluid extract, powerful (Its dose is only ¼ to 1 fluidrachm.) yet gentle in effect, and in addition does not gripe (This, next to its taste, is its most vuluable property, as ordinary bitter fluid extracts do.).

SURELY AN IDEAL LAXATIVE.

PSYCHOPATHIA SEXUALIS,

WITH ESPECIAL REFERENCE TO

Contrary Sexual Instinct.

BY

Dr. R. von KRAFFT-EBING,

Professor of Psychiatry and Neurology in the University of Vienna.

Authorized Translation of the Seventh German Edition

BY

CHARLES GILBERT CHADDOCK, M.D.,

Assistant Medical Superintendent Northern Michigan Asylum; Fellow of the Chicago Academy of Medicine.

Prof. von Krafft-Ebing's study of the psychopathology of the sexual life was, when first published, a small monograph; but in the seven editions through which it has passed so rapidly it has received so many additions and been made to cover so completely every aspect of the anomalies of the sexual sphere that the work now deserves the name of a treatise. It easily supersedes all previous attempts to treat this important subject scientifically; and it is sure to commend itself to members of the medical and legal professions as a scientific explanation of many social and criminal enigmas to which no work in English offers a solution. In one Royal Octavo volume, nearly 600 pages.

The work will be sold only by SUBSCRIPTION to MEMBERS OF THE MEDICAL AND LEGAL PROFESSIONS AT THE FOLLOWING PRICES:—

	United States.	Canada (duty paid).	Great Britain.	France.
Cloth,	$3 00 net	$3.30 net	17s. 6d.	18 fr. 60

FREE

TO ALL WHOSE NAMES APPEAR ON OUR BOOKS AS SUBSCRIBERS TO VOL. II OF SHOEMAKER'S "MATERIA MEDICA, PHARMACOLOGY, AND THERAPEUTICS."

A CLINICAL INDEX.

Ask us for the CLINICAL INDEX to this Volume.
It—the CLINICAL INDEX—was an after-thought.
Some subscribed to this Volume before the INDEX was printed.
They are entitled to receive it free of all cost and expense.

Its twenty pages contain an alphabetical list of 624 diseases, under each of which are the names of all the drugs and remedies used in any of the phases of the particular disease, thus making the most complete classification possible.

Thus, you are treating a case of typhoid fever, you look in the Index under that title and find 42 remedies suggested. By referring to the various pages describing the different drugs you will finally find perhaps one or more you may use in the phase of the disease at hand.

We shall feel best satisfied if every one who subscribed to Volume II will give us the opportunity to supply him with this Index, so as to make his work as complete as we can. This offer is in accordance with the general policy of our house to treat all alike, fairly and generously.

CLEVENGER

Spinal Concussion.

SURGICALLY CONSIDERED AS A CAUSE OF SPINAL INJURY, AND NEUROLOGICALLY RESTRICTED TO A CERTAIN SYMPTOM GROUP, FOR WHICH IS SUGGESTED THE DESIGNATION ERICHSEN'S DISEASE, AS ONE FORM OF THE TRAUMATIC NEUROSES.

By S. V. CLEVENGER, M.D., Consulting Physician Reese and Alexian Hospitals; Late Pathologist County Insane Asylum, Chicago, etc.

Special features consist in a description of modern methods of diagnosis by Electricity, a discussion of the controversy concerning hysteria, and the author's original pathological view that the lesion is one involving the spinal sympathetic nervous system.

Every Physician and Lawyer should own this work.

In one handsome Royal Octavo Volume of nearly 400 pages, with thirty Wood-Engravings.

Price, post-paid, in United States and Canada, $2.50, net; in Great Britain, 14s.; in France, 15 fr.

This work really does, if we may be permitted to use a trite and hackneyed expression, "fill a long-felt want." The subject is treated in all its bearings; electro-diagnosis receives a large share of attention, and the chapter devoted to illustrative cases will be found to possess especial importance.—*Medical Weekly Review.*

COLTMAN

THE CHINESE: Their Present and Future; Medical, Political, and Social.

By ROBERT COLTMAN, JR., M.D., Surgeon in Charge of the Presbyterian Hospital and Dispensary at Teng Chow Fu; Consulting Physician of the American Southern Baptist Mission Society, etc.

Beautifully printed in large, clear type, illustrated with Fifteen Fine Engravings on Extra Plate Paper, from photographs of persons, places, and objects characteristic of China.

In one Royal Octavo volume of 212 Pages. Handsomely bound in Extra Cloth, with Chinese Side Stamp in gold.

Price, post-paid, in United States and Canada, $1.75, net; in Great Britain, 10s.; in France, 12 fr. 20.

The Chinaman is a source of absolute curiosity to the American, and anything in regard to his relationship to the medical profession will prove more than usuall attractive to the average doctor. Such is the case with the work before us. It is difficult to put it aside after one has begun to read it.—*Memphis Med. Monthly.*

Dr. Coltman has written a very readable book, illustrated with reproductions of photographs taken by himself.—*Boston Med. and Surg. Journal.*

Attached to a number of hospitals and dispensaries, he has had ample opportunity to observe the medical aspect of the Chinese. The most prevalent diseases are such as affect the alimentary tract and eye troubles. Renal troubles are also frequent. Skin diseases are abundant and syphilis is far from infrequent. Erysipelas is rare and enteric fever infrequent. Cholera appears in epidemics and is then frightfully fatal. Leprosy, of course, is common, and the author states that it cannot be contagious, as is supposed by many, or it would assume a terrible prevalence in China, where lepers are permitted to go about free.

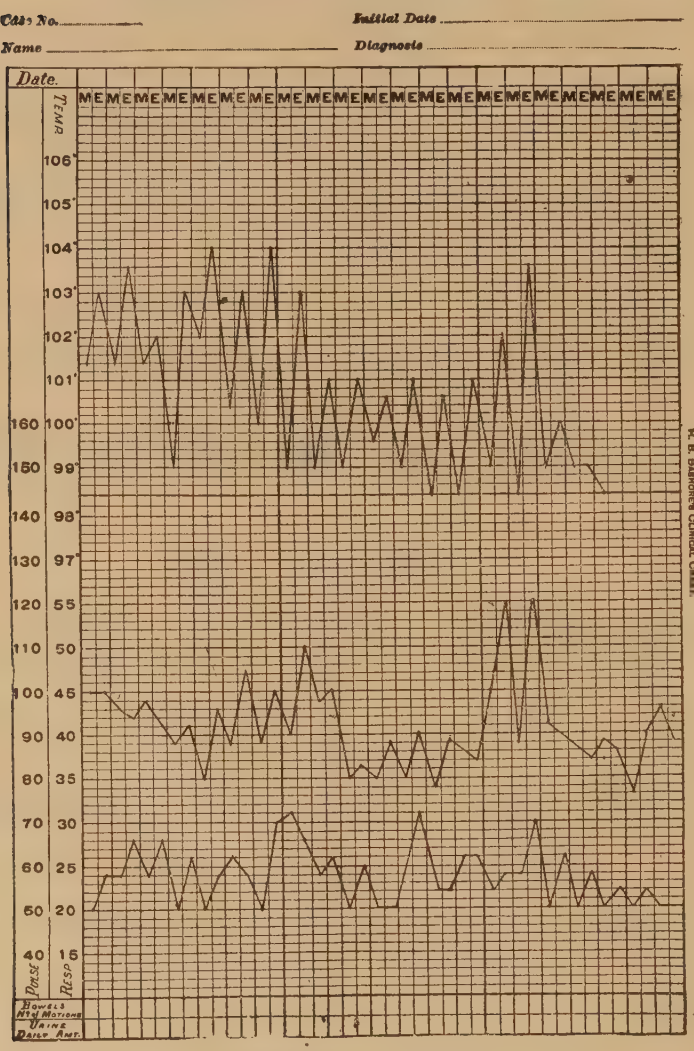
We will not further mention the subjects discussed in this excellent book. The style of the author is very interesting and taking, and much information is given in an entertaining manner. The political situation is very intelligently handled in its various bearings. The photo-engravings are handsome and well-executed, the book in general being gotten up in a very artistic manner. We can heartily commend this work not only to physicians, but to intelligent lay readers.—*St. Louis Medical Review.*

Medical Publications of The F. A. Davis Co., Philadelphia.

Bashore's Improved Clinical Chart.

For the Separate Plotting of Temperature, Pulse, and Respiration. Designed for the Convenient, Accurate, and Permanent Daily Recording of Cases in Hospital and Private Practice.

By HARVEY B. BASHORE, M.D.



COPYRIGHTED, 1888, BY F. A. DAVIS.

50 Charts, in Tablet Form. Size 8 x 12 inches. Price, post-paid, in the United States and Canada, 50 Cents, net; in Great Britain, 3s. 6d.; in France, 6 fr. 60.

The above diagram is a little more than one-fifth (1-5) the actual size of the chart and shows the method of plotting, the upper curve being the Temperature, the middle the Pulse, and the lower the Respiration. By this method a full record of each can easily be kept with but one color ink.

It is so arranged that all practitioners will find it an invaluable aid in the treatment of their patients.

On the back of each chart will be found ample space conveniently arranged for recording "Clinical History and Symptoms" and "Treatment."

By its use the physician will secure such a complete record of his cases as will enable him to review them at any time. Thus he will always have at hand a source of individual improvement and benefit in the practice of his profession, the value of which can hardly be overestimated.

Medical Publications of The F. A. Davis Co., Philadelphia.

ROHÉ

Text-Book of Hygiene.

A COMPREHENSIVE TREATISE ON THE PRINCIPLES AND PRACTICE OF PREVENTIVE MEDICINE FROM AN AMERICAN STAND-POINT.

BY GEORGE H. ROHÉ, M.D., Professor of Obstetrics and Hygiene in the College of Physicians and Surgeons, Baltimore; Member of the American Public Health Association, etc.

Every Sanitarian should have Rohé's "Text-Book of Hygiene" as a work of reference.

Second Edition, thoroughly revised and largely rewritten, with many illustrations and valuable tables. In one handsome Royal Octavo volume of over 400 pages, bound in Extra Cloth.

Price, post-paid, in United States, $2.50, net; Canada (duty paid), $2.75, net; Great Britain, 14s.; France, 16 fr. 20.

One prominent feature is that there are no superfluous words; every sentence is direct to the point sought. It is, therefore, easy reading, and conveys very much information in little space.—*The Pacific Record of Medicine and Surgery.*

It is unquestionably a work that should be in the hands of every physician in the country, and medical students will find it a most excellent and valuable text-book.—*The Southern Practitioner.*

The first edition was rapidly exhausted, and the book justly became an authority to physicians and sanitary officers, and a text-book very generally adopted in the colleges throughout America. The second edition is a great improvement over the first, all of the matter being thoroughly revised, much of it being rewritten, and many additions being made. The size of the book is increased one hundred pages. The book has the original recommendation of being a handsomely-bound, clearly-printed octavo volume, profusely illustrated with reliable references for every branch of the subject matter.—*Medical Record*

The wonder is how Professor Rohé has made the book so readable and entertaining with so much matter necessarily condensed. Altogether, the manual is a good exponent of hygiene and sanitary science from the present American stand-point, and will repay with pleasure and profit any time that may be given to its perusal.—*University Medical Magazine.*

By the Same Author

A Practical Manual of Diseases of the Skin.

By GEORGE H. ROHÉ, M.D., Professor of Materia Medica, Therapeutics, and Hygiene, and formerly Professor of Dermatology in the College of Physicians and Surgeons, Baltimore, etc., assisted by J. WILLIAMS LORD, A.B., M.D., Lecturer on Dermatology and Bandaging in the College of Physicians and Surgeons; Assistant Physician to the Skin Department in the Dispensary of Johns Hopkins Hospital.

In one neat 12mo volume of over 300 pages, bound in Extra Dark-Blue Cloth. *No. 13 in the Physicians' and Students' Ready-Reference Series.*

Price, post-paid, in the United States and Canada, $1.25, net; in Great Britain, 6s. 6d.; in France, 7 fr. 75.

The PRACTICAL character of this work makes it specially desirable for the use of students and general practitioners.

The nearly one hundred (100) reliable and carefully prepared Formulæ at the end of the volume add not a little to its practical value.

All the various forms of skin diseases, from Acne to Zoster (alphabetically speaking), are succinctly yet amply treated of, and the arrangement of the book, with its excellent index and unusually full table of contents, goes to make up a truly satisfactory volume for ready reference in daily practice.

Medical Publications of The F. A. Davis Co., Philadelphia.

BOENNING

A Text-Book on Practical Anatomy.

INCLUDING A SECTION ON SURGICAL ANATOMY.

By HENRY C. BOENNING, M.D., Lecturer on Anatomy and Surgery in the Philadelphia School of Anatomy; Demonstrator of Anatomy in the Medico-Chirurgical College, etc., etc.

Fully illustrated throughout with about 200 Wood-Engravings. In one handsome Octavo volume, printed in extra-large, clear type, making it specially desirable for use in the dissecting-room. Nearly 500 pages. Substantially bound in Extra Cloth. Also in Oil-Cloth, for use in the dissecting-room without soiling.

Price, post-paid, in the United States, $2.50, net; Canada (duty paid), $2.75, net; Great Britain, 14s.; France, 16 fr. 20.

This work is fully illustrated throughout with clear and instructive engravings. It is not as large as the usual text-books on anatomy, nor yet so small as many of the ready remembrances, but it occupies the middle ground, and will find an acceptable place with many students.—*Columbus Med. Journal.*

There is not an unnecessary word in this book of nearly five hundred pages. As a typographical specimen it is elegant. Systematic, comprehensive, and intensely practical, we heartily commend it to all medical students and practitioners.—*Denver Med. Times.*

BOWEN

Hand-Book of Materia Medica, Pharmacy, and Therapeutics.

By CUTHBERT BOWEN, M.D., B.A., Editor of "Notes on Practice."

The second volume in the *Physicians' and Students' Ready Reference Series.* One 12mo volume of 370 pages. Handsomely bound in Dark-Blue Cloth.

Price, post-paid, in the United States and Canada, $1.40, net; in Great Britain, 8s. 6d.; in France, 9 fr. 25.

This excellent manual comprises in its 366 pages about as much sound and valuable information on the subjects indicated in its title as could well be crowded into the compass.—*St. Louis Medical and Surgical Journal.*

BURET

SYPHILIS In Ancient and Prehistoric Times.

WITH A CHAPTER ON THE RATIONAL TREATMENT OF SYPHILIS IN THE NINETEENTH CENTURY.

By DR. F. BURET, Paris, France. Translated from the French, with the author's permission, with notes, by A. H. OHMANN-DUMESNIL, Professor of Dermatology and Syphilology in the St. Louis College of Physicians and Surgeons.

No. 12 in the Physicians' and Students' Ready-Reference Series. 230 pages. 12mo. Extra Dark-Blue Cloth.

Price, post-paid, in the United States and Canada, $1.25, net; in Great Britain, 6s. 6d.; in France, 7 fr. 75.

This volume, which is one of a series of three (the other two, treating of Syphilis in the Middle Ages and in modern times, now in active preparation), gives the most complete history of Syphilis from prehistoric times up to the Christian Era.

The subject throughout is treated in a clear, concise manner, and readers will find many things which are historically new.

In order to give some idea of the contents of this first volume, the following are cited as among the subjects treated :—

In What does Syphilis Consist? Origin of the Word Syphilis. The Age of Syphilis. Syphilis in Prehistoric Times. *Tchoang.*—Syphilis Among the Chinese 5000 Years Ago. *Kasa.*—Syphilis in Japan in the Ninth Century B.C. Syphilis Among the Ancient Egyptians, 1400 B.C. Syphilis Among the Ancient Assyrians and Babylonians Syphilis Among the Hebrews in Biblical Times. *Upadansa.*—Syphilis Among the Hindoos, 1000 B.C. *Sukon.*—Syphilis Among the Greeks. *Ficus.*—Syphilis at Rome under the Cæsars. Conclusion : Rational Treatment of Syphilis in the Nineteenth Century.

Medical Publications of The F. A. Davis Co., Philadelphia.

EISENBERG

Bacteriological Diagnosis.

TABULAR AIDS FOR USE IN PRACTICAL WORK.

By JAMES EISENBERG, Ph.D., M.D., Vienna. Translated and augmented, with the permission of the author, from the second German Edition, by NORVAL H. PIERCE, M.D., Surgeon to the Out-Door Department of Michael Reese Hospital; Assistant to Surgical Clinic, College of Physicians and Surgeons, Chicago, Ill.

Nearly 200 pages. In one Royal Octavo volume, handsomely bound in Cloth and in Oil-Cloth (for laboratory use).

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

This book is a novelty in Bacteriological Science. It is a work of great importance to the teacher as well as to the student. It will be of inestimable value to the private worker, and is designed throughout as a practical guide in laboratory work. It is arranged in a tabular form, in which are given the specific characteristics of the various well established bacteria, so that the worker may, at a glance, inform himself as to the identity of a given organism.

There is also an appendix, in which is given, in a concise and practical form, the technique employed by the best laboratories in the cultivation and staining of bacteria; the composition and preparation of the various solid, semi-solid, and fluid media, together with their employment; a complete list of stains and reagents, with formulæ for same; the methods of microscopic examination of bacteria, etc., etc., etc.

EDINGER

Twelve Lectures on the Structure of the Central Nervous System.

FOR PHYSICIANS AND STUDENTS.

By DR. LUDWIG EDINGER, Frankfort-on-the-Main. Second Revised Edition. With 133 Illustrations. Translated by WILLIS HALL VITTUM, M.D., St. Paul, Minn. Edited by C. EUGENE RIGGS, A.M., M.D., Professor of Mental and Nervous Diseases, University of Minnesota; Member of the American Neurological Association.

The illustrations are exactly the same as those used in the latest German edition (with the German names translated into English), and are very satisfactory to the Physician and Student using the book.

The work is complete in one Royal Octavo Volume of about 250 pages, bound in Extra Cloth.

Price, post-paid, in the United States and Canada, $1.75, net; in Great Britain, 10s.; in France, 12 fr. 20.

One of the most instructive and valuable works on the minute anatomy of the human brain extant. It is written in the form of lectures, profusely illustrated, and in clear language.—*The Pacific Record of Medicine and Surgery.*

Since the first works on anatomy, up to the present day, no work has appeared on the subject of the general and minute anatomy of the central nervous system so complete and exhaustive as this work of Dr. Ludwig Edinger. Being himself an original worker, and having the benefits of such masters as Stilling, Weigeit, Geilach, Meynert, and others, he has succeeded in transforming the mazy wilderness of nerve-fibres and cells into a district of well-marked pathways and centres, and by so doing has made a pleasure out of an anatomical bugbear.—*The Southern Medical Record.*

Every point is clearly dwelt upon in the text, and where description alone might leave a subject obscure clever drawings and diagrams are introduced to render misconception of the author's meaning impossible. The book is eminently practical. It unravels the intricate entanglement of different tracts and paths in a way that no other book has done so explicitly or so concisely.—*Northwestern Lancet.*

Medical Publications of The F. A. Davis Co., Philadelphia.

WITHERSTINE

The International Pocket Medical Formulary

ARRANGED THERAPEUTICALLY.

By C. SUMNER WITHERSTINE, M.S., M.D., Associate Editor of the "Annual of the Universal Medical Sciences;" Visiting Physician of the Home for the Aged, Germantown, Philadelphia; Late House-Surgeon Charity Hospital, New York.

More than 1800 formulæ from several hundred well-known authorities. With an Appendix containing a Posological Table, the newer remedies included; Important Incompatibles; Tables on Dentition and the Pulse; Table of Drops in a Fluidrachm and Doses of Laudanum graduated for age; Formulæ and Doses of Hypodermatic Medication, including the newer remedies; Uses of the Hypodermatic Syringe; Formulæ and Doses for Inhalations, Nasal Douches, Gargles, and Eye-washes; Formulæ for Suppositories; Use of the Thermometer in Disease; Poisons, Antidotes, and Treatment; Directions for Post-Mortem and Medico-Legal Examinations; Treatment of Asphyxia, Sun-stroke, etc.; Antiemetic Remedies and Disinfectants; Obstetrical Table; Directions for Ligations of Arteries; Urinary Analysis; Table of Eruptive Fevers; Motor Points for Electrical Treatment, etc.

This work, the best and most complete of its kind, contains about 275 printed pages, besides extra blank leaves—the book being interleaved throughout—elegantly printed, with red lines, edges, and borders; with illustrations. Bound in leather, with side flap.

It is a handy book of reference, replete with the choicest formulæ (over 1800 in number) of more than six hundred of the most prominent classical writers and modern practitioners.

The remedies given are not only those whose efficiency has stood the test of time, but also the newest and latest discoveries in pharmacy and medical science, as prescribed and used by the best-known American and foreign modern authorities.

It contains the latest, largest (66 formulæ), and most complete collection of hypodermatic formulæ (including the latest new remedies) ever published, with doses and directions for their use in over fifty different diseases and diseased conditions.

Its appendix is brimful of information, invaluable in office work, emergency cases, and the daily routine of practice.

It is a reliable friend to consult when, in a perplexing or obstinate case, the usual line of treatment is of no avail. (A hint or a help from the best authorities, as to choice of remedies, correct dosage, and the eligible, elegant, and most palatable mode of exhibition of the same.)

It is compact, elegantly printed and bound, well illustrated, and of convenient size and shape for the pocket.

The alphabetical arrangement of the diseases and a thumb-letter index render reference rapid and easy.

Blank leaves, judiciously distributed throughout the book, afford a place to record and index favorite formulæ.

As a *student*, the physician needs it for study, collateral reading, and for recording the favorite prescriptions of his professors, in lecture and clinic; as a *recent graduate*, he needs it as a reference hand-book for daily use in prescribing (gargles, nasal douches, inhalations, eye-washes, suppositories, incompatibles, poisons, etc.); as an *old practitioner*, he needs it to refresh his memory on old remedies and combinations, and for information concerning newer remedies and more modern approved plans of treatment.

No live, progressive medical man can afford to be without it.

Price, post-paid, in United States and Canada $2.00, net;
Great Britain, 11s. 6d.; France, 12 fr. 40.

It is sometimes important that such prescriptions as have been well established in their usefulness be preserved for reference, and this little volume serves such a purpose better than any other we have seen.—*Columbus Medical Journal.*

To the young physician just starting out in practice this little book will prove an acceptable companion.—*Omaha Clinic.*

As long as "combinations" are sought, such a book will be of value, especially to those who cannot spare the time required to learn enough of incompatibilities before commencing practice to avoid writing incompatible and dangerous prescriptions. The constant use of such a book by such prescribers would save the pharmacist much anxiety.—*The Druggists' Circular.*

In judicious selection, in accurate nomenclature, in arrangement, and in style, it leaves nothing to be desired. The editor and the publisher are to be congratulated on the production of the very best book of its class.—*Pittsburgh Medical Review.*

Medical Publications of The F. A. Davis Co., Philadelphia.

HUIDEKOPER

Age of the Domestic Animals.

BEING A COMPLETE TREATISE ON THE DENTITION OF THE HORSE, OX, SHEEP, HOG, AND DOG, AND ON THE VARIOUS OTHER MEANS OF DETERMINING THE AGE OF THESE ANIMALS.

By RUSH SHIPPEN HUIDEKOPER, M.D., Veterinarian (Alfort, France); Professor of Sanitary Medicine and Veterinary Jurisprudence, American Veterinary College, New York; Late Dean of the Veterinary Department, University of Pennsylvania.

Complete in one handsome Royal Octavo volume of 225 pages, bound in Extra Cloth. Illustrated with 200 engravings.

Price, post-paid, in the United States and Canada, $1.75, net; in Great Britain, 10s.; in France, 12 fr. 20.

This work presents a careful study of all that has been written on the subject from the earliest Italian writers. The author has drawn much valuable material from the ablest English, French, and German writers, and has given his own deductions and opinions, whether they agree or disagree with such investigators as Bracy Clark, Simonds (in English), Girard, Chauveau, Leyh, Le Coque, Goubaux, and Barrier (in German and French).

The literary execution of the book is very satisfactory, the text is profusely illustrated, and the student will find abundant means in the cuts for familiarizing himself with the various aspects presented by the incisive arches during the different stages of life. Illustrations do not always illustrate; these do.—*Amer. Vet. Review.*

Although written primarily for the veterinarian, this book will be of interest to the dentist, physiologist, anatomist, and physician. Its wealth of illustration and careful preparation are alike commendable.—*Chicago Med. Recorder.*

It is profusely illustrated with 200 engravings, and the text forms a study well worth the price of the book to every dental practitioner.—*Ohio Journal of Dental Sciences.*

Journal of Laryngology, Rhinology, and Otology.

AN ANALYTICAL RECORD OF CURRENT LITERATURE RELATING TO THE THROAT, NOSE, AND EAR. ISSUED ON THE FIRST OF EACH MONTH.

Edited by DR. NORRIS WOLFENDEN, of London, and DR. JOHN MACINTYRE, of Glasgow, with the active aid and co-operation of Drs. Dundas Grant, Barclay J. Baron, and Hunter Mackenzie. Besides those specialists in Europe and America who have so ably assisted in the collaboration of the Journal, a number of new correspondents have undertaken to assist the editors in keeping the Journal up to date, and furnishing it with matters of interest. Amongst these are: Drs. Sajous, of Philadelphia; Middlemass Hunt, of Liverpool; Mellow, of Rio Janeiro; Sedziak, of Warsaw; Draispul, of St. Petersburg, etc. Drs. Michael, Joal, Holger Mygind, Prof. Massei, and Dr. Valerius Idelson will still collaborate the literature of their respective countries.

Price, 13s. or $3.00 per annum (inclusive of Postage). For single copies, however, a charge of 1s. 3d. (30 Cents) will be made. Sample Copy, 25 Cents.

KEATING

Record-Book of Medical Examinations

FOR LIFE-INSURANCE.

Designed by JOHN M. KEATING, M.D.

This record-book is small, neat, and complete, and embraces all the principal points that are required by the different companies. It is made in two sizes, viz.: No. 1, covering one hundred (100) examinations, and No. 2, covering two hundred (200) examinations. The size of the book is 7 x 3¾ inches, and can be conveniently carried in the pocket.

THE PUREST AND MOST ACTIVE PEPSIN
EVER INTRODUCED.

Webber-Pepsin, S. & D.

STANDARD 1 TO 6000.

A Soluble, Non-Hygroscopic, Inodorous, Permanent Pepsin.

Dose: 1-8 to 2 Grains.

The Webber-Pepsin will completely digest 6000 times its weight of coagulated egg-albumen in accordance with the conditions of the U. S. P. test or that of the National Formulary.

It is not a Peptone-Pepsin, yet it is perfectly soluble, being free from mucus and inert putrescible matter, and is so palatable that the most fastidious patient will take it readily.

It is entirely free from septic contaminations, or other products of decomposition.

Physicians will appreciate these several advantages as possessed solely by the Webber-Pepsin.

Although further investigations based upon the Webber process have enabled us to produce Pepsin capable of digesting from 20,000 to 30,000 times its weight of coagulated egg albumen, we have adopted 1 to 6000 as our standard for the Webber-Pepsin, because this already far exceeds the digestive power of any other Pepsin yet introduced, and especially because the production of a Pepsin of a still higher digestive power disproportionately increases its cost.

The Webber-Pepsin is offered in Granular and Powdered form, also in Scales, but unless otherwise specified we invariably furnish the GRANULAR form.

Samples furnished upon application.

SYR. HYPOPHOS. CO., FELLOWS

Contains the Essential Elements of the Animal Organization—Potash and Lime;

The Oxidising Agents—Iron and Manganese;

The Tonics—Quinine and Strychnine;

And the Vitalizing Constituent—Phosphorus; the whole combined in the form of a Syrup with a **Slightly Alkaline Reaction.**

It Differs in its Effects from all Analogous Preparations; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

It has Gained a Wide Reputation, particularly in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant, tonic, and nutritive properties, by means of which the energy of the system is recruited.

Its Action is Prompt; it stimulates the appetite and the digestion, it promotes assimilation, and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; *hence the preparation is of great value in the treatment of mental and nervous affections.* From the fact, also, that it exerts a double tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

NOTICE—CAUTION.

The success of Fellows' Syrup of Hypophosphites has tempted certain persons to offer imitations of it for sale. Mr. Fellows, who has examined samples of several of these, ***finds that no two of them are identical,*** and that all of them differ from the original in composition, in freedom from acid reaction, in susceptibility to the effects of oxygen when exposed to light or heat, ***in the property of retaining the strychnine in solution,*** and in the medicinal effects.

As these cheap and inefficient substitutes are frequently dispensed instead of the genuine preparation, physicians are earnestly requested, when prescribing the Syrup, to write "Syr. Hypophos. ***Fellows.***"

As a further precaution, it is advisable that the Syrup should be ordered in the original bottles; the distinguishing marks which the bottles (and the wrappers surrounding them) bear, can then be examined, and the genuineness—or otherwise—of the contents thereby proved.

Medical Letters may be addressed to

Mr. FELLOWS, 48 Vesey Street, New York.

THE PULVERFLATOR.

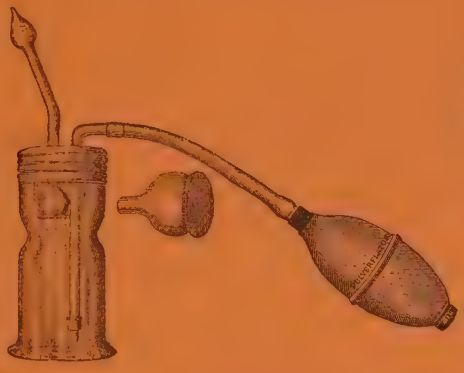
FOR ATOMIZING POWDERS,

ESPECIALLY

THE COMPOUND STEARATES, McK. & R.

An Extremely Grateful Application in Diseases of the Skin and Mucous Membrane.

The PULVER-



McK. & R. FLATOR.

LIST OF THE COMPOUND STEARATES.

McK. & R. COMPOUND STEARATE OF ZINC WITH BORIC ACID. (Zinci Stearas Co. cum Acid. Boric. —McK. & R.) Employed in catarrhal rhinitis with hypersecretion.

McK. & R. COMPOUND STEARATE OF ZINC WITH ARISTOL. (Zinci Stearas Co. cum Aristol.—McK. & R.) In atrophic rhinitis and ozæna.

McK. & R. COMPOUND STEARATE OF ZINC AND BISMUTH SUBGALLATE (Zinci Stearas Co. cum Bismuth. Subgall.—McK. & R.) Especially after operations, and instead of iodoform.

McK. & R. COMPOUND STEARATE OF ZINC WITH BALSAM PERU. (Zinci Stearas Co. cum Balsam. Peruv.—McK. & R.) In ulcerative tubercular laryngitis.

McK. & R. COMPOUND STEARATE ZINC WITH MENTHOL. (Zinci Stearas Co cum Menthol.—McK. & R.) In atrophic rhinitis this combination prolongs the medication

McK & R COMPOUND STEARATE ZINC. (Zinci Stearas Comp.—Mc. K. & R.)

McK. & R. COMPOUND STEARATE ZINC WITH AROMATIZED IODOFORM. (Zinci Stearas Co. cum Iodoform Aromat.—McK. & R.)

McK. & R. COMPOUND STEARATE ZINC WITH CHRYSAROBIN. (Zinci Stearas Co. cum Chrysarobin.—McK. & R.)

McK. & R. COMPOUND STEARATE ZINC WITH COCAINE. (Zinci Stearas Co. cum Cocain.—McK. & R.)

Soluble Coated Pills.

We append a list of selected pill formulæ, any of which we will forward on receipt of price.

SOLUBLE COATED PILLS.	BOTTLE. 100	500
Abernethy's (Aperient) ..... Dose, 1. Pulv. Aloes Socot., 2 grs. Pulv. Ipecac, 5-6 gr. Pil. Hydrarg., 1 gr. Ext. Hyoscyam., 2 grs.	75	3 50
Ague..... Medical properties—Antiperiodic. Dose, 2 to 4. Chinoidin, 2 grs. Ext. Coloc. Comp., 1-3 gr. Ol. Pip. Nig., 1-6 gr. Ferri Sul., 1-2 gr.	75	3 50
Anthelmintic ..... Med. properties—Anthelmintic. Dose, 1 to 2. Santonin, 1 gr. Calomel, 1 gr.	1 00	4 75
Anti-Bilious (Vegetable) ..... Med. prop.—Cholagogue. Cathartic. Dose. 2 to 3. Pv. Ext. Col. Co., 2 1-2 grs. Podophyllin, 1-4 gr.	50	2 25
Anti-Constipation ..... Dose, 1 to 4. Podophyllin, 1-10 gr. Ext. Nuc. Vom., 1-4 gr. Pv. Capsici, 1-4 gr. Ext. Belladon., 1-10 gr. Ext. Hyoscyami, 1-4 gr.	75	3 50
Maas Hydrarg., 2 grs. Ext. Coloc. Co., 2 grs.		
Aperient (Dr. Fordyce Barker) ..... Med. prop.—Aperient. Dose, 1 to 2. Ext. Coloc. Co., 1 2 3 grs. Ext. Nuc. Vom., 1-2 gr. Ext. Hyoscyam., 1 1-4 grs. Pulv. Ipecac, 1-12 gr. Pulv Aloes Soc., 5-12 gr. Res. Podo hylli, 1-12 gr.	1 00	4 75
Cascara Comp..... Med. prop. — Laxative, Cathartic, Dose, 2 to 4. Ext. Cascara Sagrad , 3 grs. Res. Podophylli, 1-8 gr.	75	3 50
Chalybeate, 3 grs. ..... Med. prop. — Antichlorotic. Dose, 1 to 5. Ferri Sulph., 1 1-2 grs. Potassa Carb., 1 1-2.	60	2 75
Cathartic Comp. Cholagogue ..... Med. prop. — Cathartic, Dose, 1 to 2. Res. Podophylli, 1-2 gr. Pil. Hydrarg., 1-4 gr. Ext. Hyoscyami, 1-8 gr. Ext. Nuc. Vom., 1-16 gr. Ol. Res. Capsici, 1-8 gtt.	60	2 75

PARVULES

This is a new class of medicines (minute pills) designed for administration of remedies in small doses for frequent repetition in cases of children and adults. It is claimed by some practitioners that small doses given at short intervals exert a more salutary effect. THE ELEGANCE AND EFFICIENCY OF PARVULES, AND THE AVOIDANCE OF CUMULATIVE EFFECT, DEPEND ON OUR MODE OF PREPARATION.

THE DOSE of any of the Parvules will vary from one to four according to age, or the frequency of their administration. For instance, one Parvule every hour, or two every two hours, or three every three hours, and so on for adults. For children, one three times a day is the minimum dose.

Price, 25 cents per bottle of 100 each, or $1.10 for bottles of 500.

CALOMEL, Parv. . . . . 1-20 gr.

Med. Prop.—Alterative, Purgative.

DOSE.—One to two every hour. Two Parvules of Calomel, taken every hour, until five or six doses are administered (which will comprise but half a grain) produce an activity of the liver which will be followed by bilious dejections and beneficial effects that twenty grains of Blue Mass or ten grains of Calomel rarely cause, and sickness of the stomach does not usually follow.

PODOPHYLLINI, Parv. 1-40 gr

Med. Prop.—Cathartic, Cholagogue.

Two Parvules of Podophyllin, administered three times a day, will re-establish and regulate the peristaltic action, and relieve habitual constipation, add tone to the liver, and invigorate the digestive functions.

ALOIN, Parv . . . . . 1-10 gr.

Med. Prop.—A most desirable Cathartic.

The most useful application of these Parvules is in periodic irregularities—Dysmenorrhœa and Amenorrhœa. They should be given in doses of one or two every evening at and about the expected time.

DOSE.—4 to six at once This number of Parvules taken at any time, will be found to exert an easy, prompt, and ample Cathartic effect, unattended with nausea, and in all respects furnishing the most desirable aperient and cathartic preparation in use. For habitual constipation they replace, when taken in single parvules, the various medicated waters, avoiding the quantity required by the latter as a dose, which fills the stomach and deranges the digestive organs.

AVOID SUBSTITUTES.

CH. MARCHAND'S

PEROXIDE OF HYDROGEN

(MEDICINAL) H_2O_2 (ABSOLUTELY HARMLESS.)

Most powerful bactericide and pus destroyer.
Endorsed by the medical profession.
Uniform in strength, purity, stability.
Retains germicidal power any length of time.
Taken internally or applied externally with perfect safety.

IMPERIAL GRANUM.

IMPERIAL GRANUM is one of those carefully and conscientiously prepared foods that never disappoint the doctor in its administration. We have never seen a stomach that could not retain it, no matter how inflamed it might be. It will at once be seen what a valuable aid this is to the physician in the treatment of all graver forms of gastric diseases.—*The Prescription, Feb. '91.*

FOR several years we have used and prescribed IMPERIAL GRANUM, both in private and hospital practice, and have not as yet recorded a single case of failure to obtain the most satisfactory results. Especially is it serviceable in our hospital wards, and its uniformity may always be relied upon.—*Ensworth Hospital, St. Joseph. Mo. May 15, 1891.*

IMPERIAL GRANUM is a good and well made powder of pleasant flavor * * Contains no trace of any impurity.—*The Lancet, London, Eng., July 12th, 1890.*

IMPERIAL GRANUM is acceptable to the palate and also to the most delicate stomach AT ALL PERIODS OF LIFE.—*Annual of the Universal Medical Sciences, '90.*

IMPERIAL GRANUM is an invalid food of unrivalled purity, very palatable, and of especial value in typhoid fevers, inanition, and enteric troubles generally. Its sale is world wide.—*The Homœopathic Recorder, Philadelphia, Pa., May, 1890.*

IMPERIAL GRANUM.—The greatest possible care is used in its manufacture, as we can testify, having visited the factory. Absolute cleanliness prevails, and the greatest care is taken to have the product absolutely uniform.—*The Christian Union, New York, July 4, '90.*

IMPERIAL GRANUM is a food that has attained a high and standard reputation by the merit of actual use for a long period of time.—*Medical Summary, Philadelphia, Pa., July, '88.*

IMPERIAL GRANUM is very highly recommended and endorsed by the best medical authority in the country, and deserves a trial at the hands of the profession.—*North American Practioner, Chicago, Ill., July, '91.*

IMPERIAL GRANUM has stood the test of many years, and has not been displaced by any food yet introduced, while many competing kinds of prepared foods have come and gone, and have been missed by few or none. But this will have satisfactory results in nutrition far into the future, because it is based on merit and proven success in the past.—*The Pharmaceutical Record, New York, March 19, 1891.*

IMPERIAL GRANUM—"Of the preparations so varied and so highly commended by those who put them on the market, IMPERIAL GRANUM seems to hold the first place in the estimation of medical observers.—*New York Medical Record, Vol. 13, No. 23.*

IMPERIAL GRANUM is a prepared food that has acquired a very high reputation for its nutritive and medicinal excellence, and we have found it adapted to very young children as well as adults—in fact, we have used it successfully with children from birth.—*The Post Graduate Journal, New York, April, '90.*

SOLD BY DRUGGISTS. **Shipping Depot, JOHN CARLE & SONS, New York.**

NUTROLACTIS
THE GALACTAGOGUE

Enables nursing mothers whose milk is scanty or poor to yield a copious supply of excellent milk in three days. Acts by improving nutrition. Formula on every bottle. Prepared by *Nutrolactis Company*, New York City. A full-sized bottle, value $1.00, free to any physician paying express charges on delivery. Please mention this journal.

BAILEY

Current Regulator.

For Regulating the Strength of Current, or Dosage.

This NEW INSTRUMENT perfectly supplants the Switch-board or Cell Selector as a means of modifying the current.

It is far better; also cheaper. It imposes EQUAL WORK upon all the cells of the BATTERY.

CURRENT REGULATION IS PERFECT.

From full strength of the battery down to a current so feeble as to be imperceptible to the most sensitive organ, and this without **any possibility of breaks in the circuit or sudden shocks to the patient; a most important feaure,** as all physicians know who use electricity in their practice.

With the REGULATOR there is a saving in the number of wires leading from the battery, as only two are necessary. Write us for catalogue of Electro-Therapeutical goods.

Sole Agents and Sole Licensees for the United States

ARISTOL is now widely used as an agreeable and effective dressing in all of the operations of major and minor surgery and in dentistry. It is invaluable in ulcerations of all kinds, and in burns, blisters and bed-sores. It adheres closely to mucous membranes and wound surfaces. (*Aristol and "Europhen-Aristol" a combination of both remedies, are supplied in ounces.*)

EUROPHEN is a complete substitute for iodoform and is a cicatrisant, of special value in specific lesions, catarrhal and ulcerative diseases and all surgical conditions formerly treated by the latter preparation. It has five times the covering power of iodoform and forms an impervious coating over denuded tissues. Europhen has a faint, agreeable odor resembling that of saffron. (*Supplied in ounces.*)

SALOPHEN is a new salicylo-phenolic derivative said to be so combined, chemically, as to constitute a safer and more effective remedy than either of its components, or any analagous preparation. The reports refer in the highest terms to its value in acute articular rheumatism and allied affections. Competent observers recommend it for trial. (*Supplied in ounces, tablets and pills.*)

SULFONAL induces physiological sleep, free from narcosis, and without sequelæ. It acts purely as a hypnotic and claims no analgic powers. Sulfonal is also of the highest value in the neuroses and is largely employed by neurologists. It is a perfectly safe and reliable remedy and its continuous use does not give rise to a drug habit. Sulfonal must be administered according to directions. (*Supplied in ounces, tablets and pills.*)

PHENACETINE continues to justify the high commendations of physicians, and it may properly be considered as the best of the modern antipyretics and anodynes. In *la grippe*, rheumatism, migraine, neuralgia and allied maladies it is a prompt, safe and effective remedy. Phenacetine, unlike the secret mixtures announced as analgesics and antipyretics, is a true organic derivative. (*Supplied in ounces, tablets and pills.*)
